

Aneel Bherwani, DMD, MS

Orthodontics

Dr. Bherwani was initially drawn to orthodontics for its lasting and positive impact in people's lives. He understands the power of a smile in enhancing confidence, self-esteem and works hard to craft the best possible smile for each individual while ensuring the most comfortable experience during treatment. Dr. Bherwani strives to specially tailor his care to each individual and their clinical situation, their goals, their lives, their interests and prides himself on personally getting to know all of his patients and treating everyone as if they are a member of his own family.

Dr. Bherwani or "Dr. B" is a highly accomplished orthodontist, and has been practicing since 2003. He graduated with Masters from Stony Brook University and then proceeded to University of Pennsylvania for his DMD studies. He received his Orthodontic training at the prestigious Montefiore Medical Center/Albert Einstein College of Medicine in New York City. Among his many accomplishments, he is a Fulbright Fellow and a member of the renowned Royal College of Surgeons of Edinburgh. He has published extensively in numerous orthodontic and scientific journals.

Beyond shaping smiles in the office, Dr. Bherwani loves spending time with his wife and two beautiful children: Ishaan and Mira. They enjoy hiking, swimming, riding bikes, cleaning the living room mess and occasionally eating at the Olive Garden.
